Authorized Accept voluntarily provided information by governmental or private entities.

Method:

Description: On Thursday October 10, 2019, TFO James Pertzborn contacted City of Janesville Police Detective Kyle Austin regarding City of Janesville resident, Karactus J. Blome (BLOME). Det. Austin was familiar with previously reported information concerning BLOME posting anti-establishment and anti-government material on YouTube that included video footage of Bloom testing a homemade acid throwing device.

TFO Pertzborn informed Det. Austin that he recently interviewed BLOME's biological mother, Christina Horne, who reported that she believes that BLOME's erratic behavior will likely intensify due to BLOME's unstable living arrangements in Janesville, WI. Horne reported that BLOME is extremely anti-government and anti-authority and will likely show verbal aggression towards law enforcement.

TFO Pertzborn requested that Det. Austin send out an agency wide officer safety alert concerning BLOME.

Det. Austin stated that he would forward TFO Pertzborn's contact information to Janesville Police Lt. Blaser. Lt. Blaser currently oversees the Janesville Police Department's Crisis Intervention Team (CIT).

(U) Threat To Life: False

(U) Submitted Text:

Hes been posting on facebook for a few days angry because I believe you already have an open investigation against him. He posted a video depicting how to produce an acid gun to shoot sulphuric acid in retaliation. Here is his direct quote: "Hey everyone. So...this is the production how-to video I took while making one of the acid guns that were part of the reason the government came to my house. They are afraid of the knowledge I have, so I'm sharing it with ALL! People should not be afraid of their governments, governments should be afraid of their people. So here's how you make a device that shoots sulfuric acid! Government if you're watching and you probably are, this is for harassing and threatening my family!" "Okay government, watchlist me and keep me from buying a gun...even though it won't affect me at all because you literally saw me making guncotton which can be used in place of gunpowder in ammunition...I can make my own ammo, what makes you think I can't make a gun if I wanted? Cool. Ensure that any gun I do ever have will be undocumented. Whatever. Lol what a bunch of idiots. Like I even really need a conventional weapon? I'm a weapon designer mf! I can likely invent something better anyway!" His posts are becoming more unstable and I'm incredibly concerned that he may cause harm to one or more persons

Hes been posting on facebook for a few days angry because I believe you already have an open investigation against him. He posted a video depicting how to produce an acid gun to shoot sulphuric acid in retaliation. Here is his direct quote: "Hey everyone. So...this is the production how-to video I took while making one of the acid guns that were part of the reason the government came to my house. They are afraid of the knowledge I have, so I'm sharing it with ALL! People should not be afraid of their governments, governments should be afraid of their people. So here's how you make a device that shoots sulfuric acid! Government if you're watching and you probably are, this is for harassing and threatening my family!" "Okay government, watchlist me and keep me from buying a gun...even though it won't affect me at all because you literally saw me making guncotton which can be used in place of gunpowder in ammunition...I can make my own ammo, what makes you think I can't make a gun if I wanted? Cool. Ensure that any gun I do ever have will be undocumented. Whatever. Lol what a bunch of idiots. Like I even really need a conventional weapon? I'm a weapon designer mf! I can likely invent something better anyway!" His posts are becoming more unstable and I'm incredibly concerned that he may cause harm to one or more persons
